

# Micromarkets

Smart, seamless snacking, reimagined for the workplace

Micromarkets are redefining traditional pantry and tuck-shop spaces into smart, self-service hubs built for today's fast-paced environments. Designed around real consumer demand, they bring together fresh food options, cashless payments and frictionless access, all seamlessly enabled through the mobile phone.

Ideal for high-footfall areas such as pantries, lobbies and library zones, micromarkets place convenience and employee well-being at the centre.

## The result?

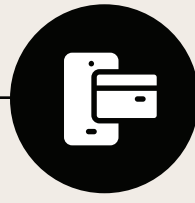

A modern, engaging food ecosystem that aligns with how workplaces and campuses function today.

## Why Micromarkets Work Better

### Consumer-First

- Driven by real demand
- Focus on wellness & fresh food
- Single engagement platform

### Tech-Enabled

- Cashless, mobile-first payments
- Faster, friction-free experience
- Phone-powered access

### Built for High-Traffic Areas

- Modern alternative to tuck shops
- Seamless self-service pantries
- Ideal for lobbies, libraries & common zones platform

Office goes now prefer health-conscious choices daily, with indulgence reserved for occasional outings. The trend towards wellness means providing nutritious options is not just a choice- it's a response to growing demand in office spaces
